**NOTES TO CONDENSED FINANCIAL STATEMENTS (Unaudited)**

1. The accompanying unaudited condensed financial statements have been prepared in accordance with the instructions for Form 10-Q and, accordingly, do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. These statements should be read in conjunction with the financial statements and footnotes included in the Company's Report on Form 10-KT for the six-month transitional period ended March 31, 2002, previously filed with the Securities Exchange Commission (the Commission). In the opinion of management, the accompanying unaudited condensed financial statements contain all adjustments necessary to present fairly the Company's financial position and the results of its operations and cash flows for the periods presented. All adjustments made to the interim financial statements were of a normal recurring nature.

The accounting policies followed by the Company are set forth in Note 1 to the Company's financial statements in the Company's Report on Form 10-KT for the six-month transitional period ended March 31, 2002 filed with the Commission on June 27, 2002.

2. The results of operations for the period ended December 31, 2002 are not necessarily indicative of the results that may be expected for the full year.
3. Inventories, principally valued by the LIFO method, are less than current cost by approximately \$450,000 at December 31, 2002. Inventory consists principally of finished goods.
4. In July 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets." The Company adopted the provisions of SFAS No. 142 on April 1, 2002. Under SFAS No. 142, goodwill as well as other intangibles determined to have an infinite life will no longer be amortized; however, these assets will be reviewed for impairment on a periodic basis. SFAS No. 142 also includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairments of goodwill. The implementation of SFAS No. 142 did not impact the Company's financial statements since the Company does not have any goodwill recorded. As of December 31, 2002 the Company had net intangible assets of \$3,132,534 and amortization expense during the nine months ended December 31, 2002 was approximately \$213,000. The estimated amortization expense for each of the next five years is approximately \$284,000 per year.

In September 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 requires that long-lived assets to be disposed of by sale, including discontinued operations, be measured at the lower of the carrying cost or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. SFAS No. 144 also broadens the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. The provisions of SFAS No. 144 are effective for financial statements issued for fiscal years beginning after December 15, 2001, and generally, are to be applied prospectively. The Company's adoption of SFAS No. 144 on April 1, 2002 did not have an impact on the Company's financial statements.

5. The Company has two reportable segments: Industrial and Water Treatment. Reportable segments are defined by product and type of customer. Each segment is responsible for the sales, marketing and development of its products and services. The segments do not have separate accounting, administration, customer service or purchasing functions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE INFORMATION CONTAINED IN THIS FORM 10-Q INCLUDES FORWARD-LOOKING STATEMENTS AS DEFINED IN SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. FORWARD-LOOKING INFORMATION OR STATEMENTS INCLUDE STATEMENTS ABOUT THE FUTURE OF THE INDUSTRIES REPRESENTED BY OUR OPERATING GROUPS, STATEMENTS ABOUT OUR FUTURE BUSINESS PLANS AND STRATEGIES, THE TIMELINESS OF PRODUCT INTRODUCTIONS AND DELIVERIES, EXPECTATIONS ABOUT INDUSTRY AND MARKET GROWTH DEVELOPMENTS, EXPECTATIONS ABOUT OUR GROWTH AND PROFITABILITY AND OTHER STATEMENTS THAT ARE NOT HISTORICAL IN NATURE. MANY OF THESE STATEMENTS CONTAIN WORDS SUCH AS "MAY," "WILL," "BELIEVE," "INTEND," "ESTIMATE," OR "CONTINUE" OR OTHER SIMILAR WORDS.

THESE FORWARD-LOOKING STATEMENTS INVOLVE A NUMBER OF RISKS AND UNCERTAINTIES, INCLUDING DEMAND FROM MAJOR CUSTOMERS, COMPETITION, CHANGES IN PRODUCT OR CUSTOMER MIX OR REVENUES, CHANGES IN PRODUCT COSTS AND OPERATING EXPENSES AND OTHER FACTORS DISCLOSED THROUGHOUT THIS REPORT. THE ACTUAL RESULTS THAT THE COMPANY ACHIEVES MAY DIFFER MATERIALLY FROM ANY FORWARD-LOOKING STATEMENTS DUE TO SUCH RISKS AND UNCERTAINTIES. THE COMPANY UNDERTAKES NO OBLIGATION TO REVISE ANY FORWARD-LOOKING STATEMENTS IN ORDER TO REFLECT EVENTS OR CIRCUMSTANCES THAT MAY ARISE AFTER THE DATE OF THIS REPORT. READERS ARE URGED TO CAREFULLY REVIEW AND CONSIDER THE VARIOUS DISCLOSURES MADE BY THE COMPANY IN THIS REPORT AND IN THE COMPANY'S OTHER REPORTS FILED WITH THE SECURITIES AND EXCHANGE COMMISSION THAT ATTEMPT TO ADVISE INTERESTED PARTIES OF THE RISKS AND UNCERTAINTIES THAT MAY AFFECT THE COMPANY'S FINANCIAL CONDITION, RESULTS OF OPERATIONS, AND CASH FLOWS.

## RESULTS OF OPERATIONS

Sales decreased \$878,680, or 3.5%, in the three months ended December 31, 2002, and \$3,481,498, or 4.2%, in the nine months ended December 31, 2002 as compared to the respective periods in 2001. The Industrial segment decreased \$1,581,685 and \$4,386,586, respectively, in the three and nine-month periods ended December 31, 2002 as compared to the respective periods in 2001. These decreases were mainly attributable to selling price decreases of a single, large-volume product (caustic soda), which was partially offset by increased sales volumes in several other product lines. The Water Treatment segment sales increased \$703,005 in the three month period ended December 31, 2002 as compared to the comparable period one year ago and had an increase of \$905,088 in the nine months ended December 31, 2002 as compared to the nine months ended December 31, 2001. These increases are due primarily to increased sales volumes and, to a lesser extent, selling price increases.

Gross margin, as a percentage of sales, for the three and nine months ended December 31, 2002 was 25.9% and 27.8%, respectively, compared to 23.6% and 23.9%, respectively, for the comparable periods in 2001. For the Industrial segment, gross margin, as a percentage of sales, was 24.3% for the three months ended December 31, 2002 compared to 22.0% in the prior year and 24.4% for the nine months ended December 31, 2002 compared to 20.8% for the comparable period in 2001. These increases are mainly due to improved margins in most product lines, including caustic soda. Due to the large quantities of caustic soda inventory that are maintained to meet customer requirements combined with the normal price fluctuations of this product, which are expected to continue in future periods, the gross margin and gross margin percentage will vary. Gross margin, as a percentage of sales, for the Water Treatment segment was 29.2% for the three months ended December 31, 2002 compared to 28.0% in the comparable period of 2001 and 33.6% for the nine-month period ended December 31, 2002 compared to 30.3% for the comparable period of 2001. These increases are primarily attributable to the fluctuations in caustic soda prices mentioned above and to increased sales in product lines that have a higher gross margin percentage.

Selling, general and administrative expenses for the three and nine month periods ended December 31, 2002 increased 2.0% and 1.4% respectively, as compared to the comparable periods in 2001. Selling, general and administrative expenses are expected to remain at similar levels for the remainder of fiscal 2003 as these expenses, excluding employee compensation and related benefits, are relatively fixed in nature and vary only slightly with sales fluctuations.

## INTEREST INCOME

Interest income increased during the three and nine-month periods ended December 31, 2002 as compared to the same respective periods in 2001. The increases were primarily due to fluctuations in cash available for investment and higher returns on the Company's cash equivalents and available for sale securities, which consist primarily of money market accounts, municipal bonds, U.S. government agency securities, mutual funds, and investment contracts with high-rated, stable insurance companies.

## PROVISION FOR INCOME TAXES

The effective income tax rate was 37.0% for the three-month periods ended December 31, 2002 and 2001 and was 37.0% for the nine-month period ended December 31, 2002 compared to 32.2% for the nine-month period ended December 31, 2001. The decrease during the nine-month period ended December 31, 2001 was due to changes in state apportionment factors and a deduction for dividends paid on allocated shares held in the Employee Stock Ownership Plan and Trust.

## LIQUIDITY AND CAPITAL RESOURCES

For the nine-month period ended December 31, 2002, cash provided by operations was \$10,755,016 compared to \$3,614,120 for the nine-month period ended December 31, 2001. This increase was due primarily to fluctuations in inventory values and quantities, timing of retirement plan payments and the increase in net income.

Cash and investments available-for-sale increased by \$6,197,459 from March 31, 2002 to \$20,708,102 as of December 31, 2002. The increase was primarily attributable to cash generated by operations in excess of capital expenditures and financing uses. Cash equivalents consist of money market accounts at a financial institution. Investments consist of investment contracts with high-rated,

stable insurance companies, marketable securities consisting of variable rate municipal bonds, U.S. government agency securities and mutual funds carried at fair value. Investments are highly liquid and are available upon demand generally with only a minor penalty.

Expected future cash flows from operations, coupled with the Company's strong financial position, puts the Company in a position to fund both short and long-term working capital and capital investment needs with internally generated funds. Management does not, therefore, anticipate the need to engage in significant financing activities in either the short or long-term. If the need to obtain additional capital does arise, however, management is confident that the Company's total debt to capital ratio puts it in a position to obtain debt financing on favorable terms.

Although management continually reviews opportunities to enhance the value of the Company through strategic acquisitions, other capital investments and strategic divestitures, no material commitments for such investments or divestitures currently exist. Until appropriate investment opportunities are identified, the Company plans to continue to invest excess cash in conservative investments.

Other than as discussed above, management is not aware of any matters that have materially affected the first nine months of fiscal 2003, or are expected to materially affect future periods, nor is management aware of other matters not affecting this period that are expected to materially affect future periods.

#### MARKET RISK

At December 31, 2002, the Company had an investment portfolio of fixed income securities of \$14,135,971 and mutual funds of \$5,812,068, excluding \$2,162,169 of those classified as cash and cash equivalents and variable rate securities. The fixed income securities, like all fixed income instruments, are subject to interest rate risks and will decline in value if market interest rates increase. However, while the value of the investment may fluctuate in any given period, the Company intends to hold its fixed income investments until maturity. Consequently, the Company would not expect to recognize an adverse impact on net income, cash flows, or the amount ultimately realized on the investment. The value of the mutual funds, like all mutual funds, may increase or decrease due to market volatility. The Company intends to continue to hold the mutual funds until it has a need to liquidate the investments. The Company does not anticipate a need to liquidate the investments in the foreseeable future and, therefore, does not expect a material adverse impact on net income, cash flows, or the amount ultimately realized on the investments.

#### CRITICAL ACCOUNTING POLICIES

Accounting policies whose application may have a significant effect on the reported results of operations and financial position of the Company, and that can require judgments by management that affect their application, include Statement of Financial Accounting Standards (SFAS) No. 5, "Accounting for Contingencies" and SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 5 requires management judgments regarding the probability and estimated amount of possible future contingent liabilities, including legal matters. SFAS No. 144 requires judgments regarding future operating or disposition plans for marginally performing assets and estimates of expected realizable values for assets to be sold.

Other accounting policies that are significant to the Company include the following:

**Revenue Recognition** – The Company recognizes revenue when the product has been shipped to the customer if there is evidence that the customer has agreed to purchase the products, delivery and performance has occurred, the price and terms of sale are fixed and collection of the receivable is expected.

**Allowance for Doubtful Accounts** – Accounts receivable are reduced by an allowance for amounts that may become uncollectible in the future. Substantially all of the Company's receivables are due from customers located in the United States. The estimated allowance for doubtful accounts is based upon the age of the outstanding receivables and the payment history and credit worthiness of each customer. Management evaluates the adequacy of the reserve for doubtful accounts on a quarterly basis.

**Inventories** – Inventories are valued at the lower of cost or market. On a quarterly basis, management assesses the inventory quantities on hand to estimated future usage and sales and, if necessary, writes down the value of inventory deemed obsolete or excess to market.

Property, Plant and Equipment – Property, plant and equipment are stated at cost and depreciated over the lives of the assets using both the straight-line and declining balance methods. Major replacements and improvements are capitalized, while maintenance and repairs, which do not improve or extend the useful lives of the respective assets are charged to operations. The assets and related accumulated depreciation accounts are adjusted for asset retirements and disposals with the resulting gain or loss, if any, recorded in the Statement of Income at the time of disposal.

The Company's policies for these matters, which are described in Note 1 to the financial statements in the Company's Report on Form 10-KT for the six-month transitional period ended March 31, 2002 filed with the Securities and Exchange Commission on June 27, 2002, are in accordance with generally accepted accounting principles. Management believes that their application results in a fair presentation in the financial statements of the Company's operating results and financial position.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk during the quarter ended December 31, 2002. For additional information, refer to Item 7A in the Company's Report on Form 10-KT for the six-month transitional period ended March 31, 2002.

#### ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-14 and 15d-14 under the Securities Exchange Act of 1934) within 90 days of the filing date of this quarterly report, and, based on their evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.
