Hawkins, Inc. Reports

First Quarter Fiscal 2027 Results

Roseville, Minn., July 29, 2026 – Hawkins, Inc. (Nasdaq: HWKN) today announced results for the three months ended June 28, 2026, its first quarter of fiscal 2027.

First Quarter Fiscal Year 2027 Highlights:

(All comparisons are to the first quarter of fiscal 2026 unless otherwise noted.)

- Record first quarter revenue of \$315.7 million, with growth of 8%, driven by increased sales across all segments, including Water Treatment segment growth of 6%, Food & Health Sciences segment growth of 9%, and Industrial Solutions segment growth of 10%.
- Record first quarter gross profit of \$74.0 million, an increase of 2%.
- Diluted earnings per share ("EPS") of \$1.35 decreased \$0.05, or 4%.
- Net income of \$28.3 million decreased 3%, with trailing twelve-month net income of \$80.6 million. Record Earnings Before Interest, Taxes, Depreciation and Amortization ("adjusted EBITDA"), a non-GAAP measure, of \$56.9 million, a 1% increase. Trailing twelve-month adjusted EBITDA of \$179.8 million.
- Generated operating cash flow of \$35.2 million, an increase of 12%. Free cash flow, defined as net cash provided by operating activities less capital expenditures, increased over 30%, to \$23.5 million, which we allocated to repurchasing \$7.0 million of stock, paying \$4.0 million in dividends, and acquiring Aqua-Chem, Inc. for \$3.6 million.
- We continued to execute on our Water Treatment growth strategy with the purchase of Aqua-Chem, Inc., a distributor of water treatment products mainly in Nebraska and Iowa.

Executive Commentary – Patrick H. Hawkins, Chief Executive Officer and President:

"Our first quarter was a solid start to the year, highlighted by another quarter of record results in revenue, gross profit, and adjusted EBITDA" said Patrick Hawkins, Chief Executive Officer and President. "Our record revenue of \$315.7 million was the result of all three reporting segments growing year over year, and included organic revenue growth of approximately 5%, consistent with our expectation of returning to historical organic revenue growth rates in fiscal 2027."

Mr. Hawkins continued, "The first quarter brought raw material volatility. Our great team members stayed close to our suppliers and our customers, managing input costs while continuing to deliver the products and level of service expected from Hawkins. As we exited the quarter, raw material costs had largely stabilized."

Mr. Hawkins concluded, "Our balance sheet remains strong, and our leverage ratio at the end of the first quarter was 1.36x adjusted EBITDA. We continue to generate strong free cash flow and we expect to continue to pay down debt during fiscal 2027. We will also continue to deliver on our strategy of investing in our higher-margin businesses, acquiring companies that are accretive to Hawkins, and servicing the needs of our customers to the highest level possible."

First Quarter Financial Highlights:

NET INCOME

For the first quarter of fiscal 2027, we reported net income of \$28.3 million, or \$1.35 per diluted share, compared to net income for the first quarter of fiscal 2026 of \$29.2 million, or \$1.40 per diluted share.

REVENUE

Sales were \$315.7 million for the first quarter of fiscal 2027, an increase of \$22.4 million, or 8%, from sales of \$293.3 million in the same period a year ago. All of our segments grew by more than 5% from the same period a year ago.

Water Treatment segment sales increased \$8.7 million, or 6%, to \$158.3 million for the current quarter, from \$149.6 million in the same period a year ago. Water Treatment sales increased as a result of \$6.9 million of added sales from acquired businesses, as well as increased organic sales volumes and improved pricing on certain products in our legacy business, including continued growth in our proprietary product lines.

Food & Health Sciences segment sales increased \$8.1 million, or 9%, to \$97.3 million for the current quarter, from \$89.2 million in the same period a year ago. Sales of our agricultural, nutrition, and pharmaceutical products all increased over the same period a year ago, partially offset by decreased sales volumes of our food ingredient products. Agricultural products remained a source of strength, with sales growth of 30% driven by higher volumes.

Industrial Solutions segment sales increased \$5.6 million, or 10%, to \$60.1 million for the current quarter, from \$54.5 million in the same period a year ago. Industrial Solutions segment sales increased primarily as a result of increased sales volumes of certain of our manufactured, blended and repackaged products.

GROSS PROFIT

Gross profit increased \$1.6 million, or 2%, to \$74.0 million, or 23% of sales, for the current quarter, from \$72.4 million, or 25% of sales, in the same period a year ago. During the current quarter, the LIFO reserve increased, and gross profit decreased, by \$1.9 million, a \$1.3 million greater headwind than in the same period a year ago. In addition to the impact of the LIFO reserve, gross margin was pressured by higher freight costs of approximately \$1.3 million that were not fully recovered through freight charges billed to customers.

Gross profit for the Water Treatment segment increased \$1.7 million, or 4%, to \$45.5 million, or 29% of sales, for the current quarter, from \$43.7 million, or 29% of sales, in the same period a year ago. During the current quarter, the LIFO reserve increased, and gross profit decreased by \$0.5 million, a \$0.3 million greater headwind than in the same period a year ago. The increase in gross profit was primarily driven by higher sales partially offset by higher LIFO and freight costs.

Gross profit for the Food & Health Sciences segment was \$19.3 million for the current quarter, unchanged from the same period in the prior year. During the current quarter, the LIFO reserve increased, and gross profit decreased, by \$0.8 million, a \$0.6 million greater headwind than in the same period a year ago. The benefit of higher sales volumes was offset by higher LIFO and freight costs.

Gross profit for the Industrial Solutions segment of \$9.2 million, or 15% of sales, for the current quarter, was relatively flat compared to \$9.3 million, or 17% of sales, in the same period a year ago. During the current quarter, the LIFO reserve increased, and gross profit decreased, by \$0.7 million, a \$0.5 million greater headwind than in the same period a year ago. The benefit of higher sales volumes was more than offset by higher LIFO and freight costs.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative ("SG&A") expenses increased \$4.3 million, or 14%, to \$35.3 million, or 11% of sales, for the current quarter, from \$31.0 million, or 11% of sales, in the same period a year ago. This included \$2.1 million due to added costs from the acquired businesses in our Water Treatment segment. In addition, the prior-year period included a \$1.9 million favorable fair value adjustment that reduced SG&A, reflecting a downward revision to the estimated Water Solutions earnout liability based on a change in projected estimates related to the earnout target. This benefit did not recur in the current period, resulting in a \$1.9 million year-over-year increase in SG&A. SG&A also included a \$0.5 million incremental increase in non-qualified deferred compensation expense, which was offset by a corresponding gain within other income. These increases were partially offset by lower acquisition-related costs and other changes across our operating expenses.

ADJUSTED EBITDA

Adjusted EBITDA, a non-GAAP financial measure, is an important performance indicator and a key compliance measure under the terms of our credit agreement. An explanation of the computation of adjusted EBITDA is presented below. Adjusted EBITDA for the three months ended June 28, 2026 was \$56.9 million, an increase of \$0.8 million, or 1%, from \$56.1 million in the same period a year ago. In the third quarter of fiscal 2026, we revised our definition of adjusted EBITDA to exclude non-cash earnout related expense and income, in order to better reflect results from operations. Prior-year adjusted EBITDA has been recast in accordance with the current definition. As originally reported, adjusted EBITDA for the three months ended June 29, 2025 was \$57.6 million, which included non-cash earnout related income that is excluded under the current definition.

INCOME TAXES

Our effective income tax rate was 24% for the current quarter and 25% for the same period a year ago. The effective tax rate in both years was impacted by favorable tax provision adjustments recorded. The effective tax rate is impacted by projected levels of annual taxable income, permanent items, and state taxes. Our effective tax rate for the full year is expected to be approximately 25% to 27%.

BALANCE SHEET

As of June 28, 2026, our working capital was \$13 million higher than the end of fiscal 2026 due primarily to increased trade receivables. Our total debt outstanding at the end of the first quarter was \$244.0 million, and our leverage ratio was 1.36x our trailing twelve-month adjusted EBITDA, as compared to 1.37x our trailing twelve-month adjusted EBITDA at the end of fiscal 2026.

About Hawkins, Inc.

Hawkins, Inc. was founded in 1938 and is a leading water treatment and specialty ingredients company that formulates, manufactures, distributes, and blends products for its Water Treatment, Food & Health Sciences, and Industrial Solutions customers. Headquartered in Roseville, Minnesota, the Company has 66 facilities in 28 states and creates value for its customers through superb customer service and support, quality products and personalized applications. Hawkins, Inc. generated approximately \$1.1 billion of revenue in fiscal 2026 and has approximately 1,200 employees. For more information, including registering to receive email alerts, please visit www.hawkinsinc.com/investors.

Reconciliation of Non-GAAP Financial Measures

We report our consolidated financial results in accordance with U.S. generally accepted accounting principles (GAAP). To assist investors in understanding our financial performance between periods, we have provided certain financial measures not computed according to GAAP, including adjusted EBITDA and free cash flow. These non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures. The method we use to produce non-GAAP results is not computed according to GAAP and may differ from the methods used by other companies.

Management uses these non-GAAP financial measures internally to understand, manage and evaluate our business and to make operating decisions. Management believes that these non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results, provide a more complete understanding of the factors and trends affecting our financial condition and results of operations.

We define adjusted EBITDA as GAAP net income adjusted for the impact of the following: net interest expense resulting from our net borrowing position; income tax expense; non-cash expenses including amortization of intangibles, depreciation, charges for the employee stock purchase plan and restricted stock grants, non-recurring items of income or expense, and earnout-related expense or income. The non-cash earnout related expense or income adjustment was added to our definition in the third quarter of fiscal 2026 to better reflect results from operations. Prior period amounts have been recast to conform to the current definition.

We define free cash flow as net cash provided by operating activities less purchases of property, plant, and equipment. Management believes free cash flow is a useful measure of the cash generated by our business that is available for, among other things, debt repayment, acquisitions, dividends, and share repurchases.

Forward-Looking Statements. Various remarks in this press release constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include those relating to consumer demand for products containing our ingredients and the impacts of those demands, expectations for results in our business segments and the timing of our filings with the Securities and Exchange Commission. These statements are not historical facts, but rather are based on our current expectations, estimates and projections, and our beliefs and assumptions. Forward-looking statements may be identified by terms, including “anticipate,” “believe,” “can,” “could,” “expect,” “intend,” “may,” “predict,” “should,” or “will” or the negative of these terms or other comparable terms. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and are difficult to predict. Actual results may vary materially from those contained in forward looking statements based on a number of factors, including, but not limited to, changes in competition and price pressures, changes in demand and customer requirements or processes for our products, availability of product and disruptions to supplies, interruptions in production resulting from hazards, transportation limitations or other extraordinary events outside our control that may negatively impact our business or the supply chains in which we participate, changes in imported products and tariff levels, the availability of products and the prices at which they are available, the acceptance of new products by our customers and the timing of any such acceptance, changes in product supplies, the availability of target acquisitions, and changes in interest rates. Additional information concerning potential factors that could affect future financial results is included in our [Annual Report on Form 10-K for the fiscal year ended March 29, 2026](#), as updated from time to time in amendments and subsequent reports filed with the SEC. Investors should take such risks into account when making investment decisions. Shareholders and other readers are cautioned not to place undue reliance on forward-looking statements, which reflect our management’s view only as of the date hereof. We do not undertake any obligation to update any forward-looking statements.
